Effective communication:

we are committed to interact through various channels of communication with all groups concerned customers, partners, suppliers, local and international community.

VALUES

Making scientific ideas become a reality and to develop and use technology properly to reach the truth.

GOALS

Consolidation and continuity to meet market needs. extension and expansion to reach all nations.

OUR SERVICES

Our Services

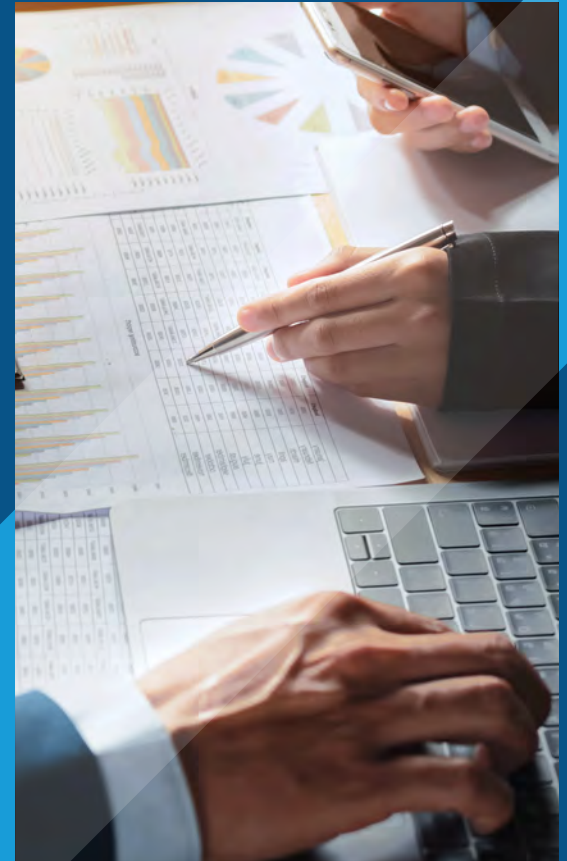

External Audit

Our qualified auditors prepare the audit of Financial Statements that includes the examination and verification of a company's financial and accounting records and supporting documents. We prepare the Financial Statements in accordance with International Financial Reporting Standards as well as the Audit Reports in accordance with the International standards of Auditing. Audit provides to every business the opportunity to improve company's effectiveness and reliability. Furthermore as external Auditors we form an independent opinion on the Financial Statements.

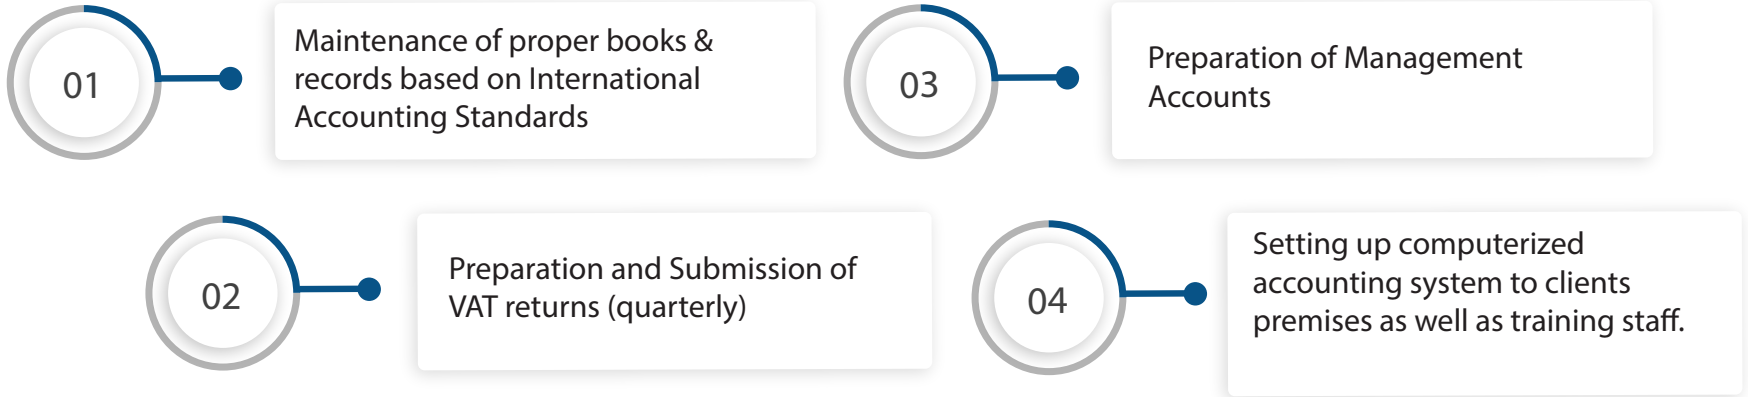

Internal Audit

With comprehensive understanding of the objectives and priorities of the organization, we work collaboratively with our clients to provide internal audit services. We offer enterprise-wide risk management systems and services that can improve your business operations by reducing the costs, enhancing revenues and managing changes to your business processes. We also offer internal audit co-sourcing, resource enhancement, access to specialized skills or full outsourcing, depending on your requirements.

Accounting & Book Keeping

Our Bookkeeping department can provide systematic recording, reporting and analysis of financial transactions of your business using fully computerized up to date accounting systems. Our bookkeeping services include:

Internal Control

Organizations need to know that their Accounting systems are working effectively, in order to minimize risks such as possible loss of assets. That's why many clients appoint an independent professional for internal control and systems reviews. We provide independent assurance that the internal systems and controls of the organization are adequate, effective and appropriate to the accounting and financial risks of their organization.

Due Diligence

Investigation of a business or person prior to signing a contract, or an act with a certain standard of care. It can be a legal obligation, but the term will more commonly apply to voluntary investigations.

The theory behind due diligence holds that performing this type of investigation contributes significantly to informed decision making by enhancing the amount and quality of information available to decision makers and by ensuring that this information is systematically used to deliberate in a reflexive manner on the decision at hand and all its costs, benefits, and risks.

Entity Level Control

As for the liquidation, it can be that the companies are subject to liquidation for several reasons, which result in termination of the necessary accounting and legal aspects, and through our cadres and qualified expert in the field of establishing arrangements and liquidation of companies offer their customers these services in a professional manners.

Contractor Classification

We are helping the client to build their financial profile to fulfill financial requirements for the classification process. We take care of your financial aspects, allowing you to maintain focus on core business and operations.
